

**Report of the Curator of the  
Somerset County Museum, from July 2nd, 1924,  
to July 21st (Annual Meeting), 1925**

COMPARED with last year there has been an increase in acquisitions both in the Museum and Library, as may be gathered from a perusal of the following pages.

Within the period of the above dates a large number of antiquities have been added to the collections as the result of the Excavations at Taunton Castle and the Meare Lake Village (in September, 1924, and June, 1925). They have been temporarily arranged for reference by the general public.

The specimens collected by Dr. R. Hensleigh Walter in the last few years of his life and now added to the Ham Hill collections will be listed in next year's report.

Other interesting acquisitions are the local archæological remains and collection of weights given by the Misses Smith in memory of their father the late Prebendary Gilbert E. Smith; a Five-guinea piece of George II, 1748, given by Mrs. Wansbrough; a panel of Stuart needlework from Mrs. Luttrell, of Edington; and some 'bygones' from Mr. S. Lloyd Harvey.

A large number of local deeds and other manuscripts have been given by Mr. H. Byard Sheppard, the Friends' Somerset Charities and others. The work of calendaring the Society's manuscripts is steadily progressing.

Several new books have been added to the Ornithological series; and the Botanical books have been re-arranged.

A cabinet for lantern slides has been purchased for the purpose of collecting slides chiefly having reference to the history, archæology and natural history of Somerset. Members and others are invited to contribute to this collection.

The Microscopical and the Botanical Sections held general

meetings at the Castle on December 17th, 1924; the Entomological Section on February 20th, 1925, and the Ornithological Section on April 14th. The Taunton Field Club held conversazioni at Taunton Castle and the Municipal Hall on October 7th, 1924, and January 8th and March 5th, 1925.

The Somersetshire Archæological and Natural History Society consisted of 1,050 members on July 21st, 1925, including twenty-two life members and three honorary members.

The Museum and Library were visited by 8,962 persons in 1920, 8,393 in 1921, 8,250 in 1922, 8,909 in 1923, and 8,302 in 1924.

H. ST. GEORGE GRAY,

*Assist.-Secretary and Librarian, Som. Arch. & Nat. Hist. Society,  
Curator of the Somerset County Museum.*

## Additions to the Museum

### I. ARCHÆOLOGY.

#### (1). STONE IMPLEMENTS.

STONE celt, polished, of Neolithic type ; small, and somewhat weathered ; squared at the sides and at the butt end ; length 70mm. ( $2\frac{3}{4}$ ins.). Found at Barton St. David, 1871.

Stone celt, polished, of Neolithic type ; of bi-convex section in both directions ; length  $4\frac{1}{2}$ ins. Believed to have been found in Somerset (? Barton St. David).

Leaf-shaped flint arrowhead (length 38mm.), a small triangular flint implement, and three worked flint flakes. Found on Corton Hill (? Downs), Corton Denham, Som., 1870. Flint scraper, Yorkshire.

Presented by the Misses SMITH, daughters of the late Rev. Preb. G. E. Smith.

Stone adze-hammer, damaged ; dug up in August, 1924, by the donor in extending his garden at Pitminster about 200 yards from the Church ; depth about 18ins.—Presented by Mr. FREDK. ADAMS.

Finely worked leaf-shaped flake of flint, length 36mm., probably used as a knife ; of Neolithic type. Found by the donor—a school-boy—in trenching in the garden of North Town School, Taunton.—Given by ARTHUR HAYES.

Pigmy flint, from Stock Hill, Chilcompton.—Given by the Rev. Father HORNE, F.S.A.

## (2). MISCELLANEOUS.

The Antiquities found during the ninth and tenth seasons' excavations at the Meare Lake Village, Field No. 2, in August-September, 1924, and June, 1925, under the direction of Dr. Arthur Bulleid and Mr. H. St. George Gray.—Presented by the SOMERSET COUNTY COUNCIL.

Penannular ornament of gold, slightly crushed but otherwise complete, hollow, triangular in section and constructed from five pieces of thin gold; ext. diam. 22mm.; weight 2dwts. 2grs. Found over a hundred years ago at the north end of the hamlet of Galhampton and just within the parish of Castle Cary. It had been handed down in the donor's family and was dug up by his great-grandfather, Col. Wm. Woodforde (1758-1844) in his garden on the west side and close to the main road from Castle Cary to Ilchester; late Bronze Age. (Fully described and figured in *The Antiquaries Journal*, v, 141-144).—Presented by Dr. R. E. H. WOODFORDE.

Bronze celt, or palstave, having one loop complete; in fair condition; length 145mm. ( $5\frac{1}{16}$ ins.); weight 12ozs. avoirdupois (340 grammes). Found near Milborne Port, Som.—*Purchased.*

Needle made from a splinter of a long-bone, length 65mm. ( $2\frac{9}{16}$ ins.); expanded in the region of the eye; of Late-Celtic type. Found in a stone quarry a short distance to the south of Camerton Farm and to the north of and near the Fosse Way, parish of Camerton, 1924.—Presented by Mr. ALFRED MATTHEWS.

Flat disc of stone perforated in two places in the middle; found on the site of the Glastonbury Lake Village.—Presented by the Misses SMITH.

Burial urn of an unusual type, height 7.6ins. Found inverted over the unburnt skeleton of an infant; Ham Hill, Stoke-under-Ham, 1923; 1st century A.D. (Figured and described in *The Antiquaries Journal*, iv, 51-52).—From the late Dr. R. HENSLEIGH WALTER'S Collection.

Part of a large ring of Ham Hill stone, burnt by fire; from Ham Hill.—Given by Dr. S. L. BRIMBLECOMBE.

Fragment of prehistoric pottery, two flint flakes, and a few

animal bones, found in 1924 at the bottom of the trench cut for a water-supply to the village of Trent, near Sherborne; together with a report and illustrations by Mr. Geo. Batchelor, Digby Estate Office, Sherborne.—Given by Mr. E. A. RAWLENCE, F.S.A.

Lump of chalk well marked by the blow of an antler pick, from the ancient flint mine at Harrow Hill, Sussex.—Given by Dr. ELIOT CURWEN, F.S.A.

Brick from the Great Wall of China, brought home by the donor; complete, length  $14\frac{1}{2}$ ins., width  $7\frac{1}{2}$ ins., thickness  $4\frac{1}{2}$ –5ins.—Given by Mrs. T. A. WALSH.

## II. ETHNOGRAPHY.

Panel of Stuart petit point needlework in contemporary frame,  $17\frac{1}{2}$  by 13ins.; the central figure, crowned, is probably intended for Queen Henrietta Maria.—Given by Mrs. LUTTRELL, Edington, Bridgwater.

Eleven old lace draughts (originals), of the Midland counties, mounted on two sheets.—Given by Mr. A. A. CARNES.

Purse of crochet-work ornamented with steel bead-work.—Given by Miss C. M. JENNINGS.

Lace pillow, Buckinghamshire, with pattern, sample of lace and bobbins attached; also a large number of bobbins separately, samples of lace and prickings; the property of Miss A. H. Bartlett.—Deposited by the Rev. W. E. ROBINSON.
