VOLUME LXXXIX for 1943 was the smallest volume issued by the Society since the end of the last war. For Volume XC it has been possible to increase the number of pages somewhat, and to print the full list of Members again,

The thanks of the Society are due to the Rev. H. E. Field for his contribution towards the cost of the blocks for Mr. A. B. Connor's paper (Part XIV) on Monumental Brasses; to Mr. Connor for one of the blocks; and to Mr. H. St. George Gray for compiling the Index.

THE EDITORIAL COMMITTEE.

TAUNTON CASTLE,
April 1945.

The Council of the Somersetshire Archaeological and Natural History Society desire that it should be distinctly understood that although the volume of PROCEEDINGS is published under their direction, they do not hold themselves in any way responsible for any statements or opinions expressed therein; the authors of the several papers and communications being alone responsible.
