PROCEEDINGS
DURING THE YEAR 1928

VOL. LXXIV

The Council of the Somersetshire Archæological and Natural History Society desire that it should be distinctly understood that although the volume of PROCEEDINGS is published under their direction, they do not hold themselves in any way responsible for any statements or opinions expressed therein; the authors of the several papers and communications being alone responsible.

PREFACE

As this volume contains the concluding paper by Dr. Alfred C. Fryer on the Somerset Monumental Effigies, the Society wishes to thank the author in an especial way for this most valuable series of papers, extending over a period of fourteen years. Not only has Dr. Fryer brought together the extensive information contained in these descriptions, but he has also generously provided the illustrations at his own cost. Thanks are also due to Lord Hylton for the blocks of the two Manor Houses about which he writes; to Mr. J. G. H. Warren for the blocks of Prior Park and the Waggon-way, and Allen's Stone Waggon; to Lady Boyd Dawkins for the block of the portrait of Sir William Boyd Dawkins; to Mr. R. F. Parry for the greater part of the cost of the blocks of the Cheddar discoveries; to Mr. C. R. Peers for the plan of Glastonbury Abbey, explaining the excavations of 1928; to the Roman Building Excavation Fund, Yeovil, for the loan of a number of blocks to illustrate Mr. Raleigh Radford's report; and to others who have prepared drawings and photographs for the volume.
