Webinar presentation

St. Kilda: Unesco World Heritage Site

Isolated and now uninhabited, find out about its intriguing history and wildlife

on Thursday **December 9th** 7.30pm

by Sara Frost

Dry stone hut or *cleit* above Village Bay, St Kilda.

These most westerly islands of the Outer Hebrides, alone in the Atlantic, were inhabited until 1930. **Sara Frost, NatureTrek's leader on trips to St. Kilda**, will give an illustrated talk on St. Kilda and its adjacent islands, describing the journey to the island and the wildlife to be seen on the way. The talk will concentrate on the history and wildlife of St. Kilda, which has a million seabirds, a mouse twice the size of its mainland cousins and a unique wren, apart from everything else, in and out of the sea...

To register in advance for this Webinar, email webinars@sanhs.org

Or to register directly, go to:

https://us06web.zoom.us/webinar/register/WN_qqZ_8X8BRTOU_AC1eHY7xg

After registering, you will receive a confirmation email containing information about joining the webinar

Although this is a **free event**, a donation would be appreciated. Please go to the SANHS website <https://sanhs.org/> and use the Donate button. **We suggest a donation of £5 or more.**
